-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restriction

1. The preliminary amendment filed 10-30-01 has been entered into the record and has been fully considered.
2. Claims 1-22 are canceled. Claims 23-44 are pending.
3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 23-38 and 40-41 in part, drawn to the first appearing special technical feature peptide of SEQ ID NO:2, first appearing method of making via nucleic acids of SEQ ID NO:1, host cell and vector and first method of use in a method of identifying compounds.

Group II, claims 23-38 and 40-41 in part, drawn to the second appearing special technical feature peptide of SEQ ID NO:4, first appearing method of making via nucleic acids of SEQ ID NO:3, host cell and vector and first method of use in a method of identifying compounds.

Group III, claim 39 in part drawn to the third technical feature antibody specific to SEQ ID NO:2.

Group IV, claim 39 in part, drawn to the fourth technical feature antibody specific to SEQ ID NO:4.

Group V, claim 42 in part, drawn to the second method of using the first technical

Art Unit: 1647

feature (SEQ ID NO:2) in a method of evaluating the effectiveness of a test compound for treatment.

Group VI, claim 42 in part, drawn to the second method of using the second technical feature (SEQ ID NO:4) in a method of evaluating the effectiveness of a test compound for treatment.

Group VII, claims 43-44 in part, drawn to the third method of using the first technical feature peptide of SEQ ID NO:2 in a method of treating or preventing.

Group VIII, claims 43-44 in part, drawn to the third method of using the first technical feature peptide of SEQ ID NO:2 in a method of treating or preventing.

4. The inventions listed as Groups I-VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the peptides and nucleic acids differ in sequence structure, length, function, effects and capable use. The methods use different special technical features, steps, different reagents and exhibit different effects, functions and outcomes.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). In order to be fully responsive, Applicant is required to elect a single group from designated groups I-VIII as set forth above to which the claims will be restricted, even though the requirement is traversed

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1647

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

7. Any inquiry of a general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is (703) 308-0196.

Papers relating to this application may be submitted to Technology Center 1600, Group 1640 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Should applicant wish to FAX a response, the current FAX number for Group 1600 is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
